Office Action Summary	Application No. 10/575,168	Applicant(s) KOEDA ET AL.	
	Examiner Nathan E. Durham	Art Unit 3765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

5 Applicant is reminded of the proper language and format for an abstract of the disclosure.

10 The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

15 The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

20 The abstract of the disclosure is objected to because the abstract contains more than one paragraph. Correction is required. See MPEP § 608.01(b).

Claim Objections

25 Claims 3 and 4 are objected to because of the following informalities: Claims 3 and 4 appear to be apparatus claims that define a clothes holding device, however, the claim language seems to refer to the process of making the apparatus. Are claims 3 and 4 method claims or apparatus claims? For the purpose of this Office Action, the claims will be assumed to represented apparatus claims. Appropriate correction is required.

30

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5

Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by
WANG (U.S. Patent 6,135,330).

10 WANG discloses a clothes holding device wherein a flexible member (1) forming
the surface of a wall plane is cut into a line symmetrical shape (inherently cut into shape
as shown in figure 2) with a horizontal axis as a symmetrical axis (Figures 1 and 2).
WANG discloses a vertical-directional upper area not being cut (no cuts shown going
into the vertical-directional upper area) and a vertical directional lower area being bent
along the horizontal axis (Figures 1 and 2). WANG discloses a bent portion and a
remaining portion having the ability to hold clothes (Figure 1 and Disclosure). WANG
15 discloses an engagement member (12) in the vertical-directional upper area and an
engagement member (13) in the vertical-directional lower. WANG discloses the
engagement members (12, 13) being engaged with each other whereby a status where
the vertical-directional lower area is bent along the horizontal axis is maintained
(Figures 1, 2 and 3).
